

Student Achievement and Success Goals Report from 2019-2020 to 2022-2023

Mission
 Navarro College provides educational opportunities that empower students to achieve their personal, academic, and career goals and that promote life-long learning for all communities served.

Student Achievement
 To evaluate its effectiveness in supporting student success and achievement, the College tracks the following key performance indicators (KPIs) as part of its strategic goals assessment process: persistence, retention, successful course completion, graduation, transfer, job placement, and state licensure. For the purpose of evaluation, benchmarks were identified for each KPI to provide a basis for assessing individual goal achievement. In some cases, as noted in the chart below, the benchmark is based upon the average of Texas Higher Education Coordinating Board peer group outcomes data (THECB); while in other cases, the benchmark is based upon a rolling two-to-three-year average of the College’s internal data, as appropriate.

-  Green indicates the College is within less than 1% or above of reaching or exceeding the Benchmark.
-  Yellow indicates the College is within 1% - 5% below reaching the Benchmark.
-  Red indicates the College is over 5% below reaching the Benchmark.
-  White indicates the data is not available at this time.
